Subject: RE: Request from RTOC member for update on Wrangell dumpsite
Date: Wednesday, January 10, 2018 10:23:23 AM

Thank you Michelle for getting back to me. This was a question raised from Chris Hatton and the Wrangell Cooperative Association. I am going to cc her on this and let her follow up if she has any other questions, comments, or concerns.

Chris,

Let me know if there is anything I can help you with.

Gunalchéesh / Háw'aa/ Thanks,

Raymond E. Paddock III, Environmental Coordinator

Subject: FW: Request from RTOC member for update on Wrangell dumpsite

Good morning Ray;

Hope you are well. I'm writing with a follow up from the last RTOC meeting where you requested information on the contaminated soil from the junkyard in Wrangell and EPA's role.

Wally Moon provided a letter from ADEC that outlines the work to date and EPA's role. Mr. Moon is the manager of R10's Office of Environmental Cleanup & Emergency Management Program. If there are remaining questions or concerns, you are welcome to call him. His response does show that he is in training this week.

I'm also happy to help set up a meeting if requested.

Best,

Michelle V. Davis

Here's a letter that summarizes the situation pretty well. Let me know if this works. You can certainly share this with the requestor.

Jeff and I are in training all week but could develop something different if needed (though the details are in this letter from ADEC).

Wally
